Soul. Spirit. Sprite.

Including 3 fantastic new layouts and a twin axle model, the Sprite range offers comfort and space no matter which model you look at. From the compact and neat Alpine 2, to the spacious and luxurious Major 6, style and design are at the forefront of the Sprite range. The Sprite range is not only a great starting point for owning a caravan but is, quite simply, sublime. With six unique models, we know you will be spoilt for choice. With the Alpine, Major, Musketeer and Quattro covering all tastes, you're bound to find a Sprite that will spirit its way into your heart. All sizes are catered for too, with the Sprite range sleeping from two to six people. The only question that remains is; which one will you take home?

South Yorkshire Motorhomes and Caravans, established in 1999, operates from an impressive 13 acre site with over 200 models on display including a heated indoor showroom and fully stocked accessory shop. So whatever the weather you can be assured of a warm welcome...

Don't miss out on...
